Practice Profile:

Deepak Deshmukh brings over 16 years of expertise to KJAC & Associates as a veteran Dispute Resolution Strategist & Consultant. His practice is rooted in Complex Commercial Disputes, Insolvency Law, Media & Entertainment Law, and White-Collar Crime. He holds a distinguished record in handling high-profile matters and has good understanding of the legal and regulatory landscape. He is known for his strategic, client-first approach. Deepak combines a thorough legal analysis with practical solutions tailored to achieve optimal results for clients.

Deepak has vast experience in Arbitration, International and Domestic, wherein he has advised and represented clients from different sectors. His understanding of the business of a client helps him going to the root of the issue and that sets him apart from his peers in the profession. Deepak has also assisted clients in drafting their contracts with third parties, employees etc., safeguarding client's interest.

In Insolvency Law, Deepak's practice involves representing creditors, debtors, resolution professionals. He has been advising and representing clients before NCLT, NCLAT and Supreme Court. He leverages his depth of knowledge to support clients in managing distressed assets, achieving timely resolutions, and navigating regulatory requirements effectively.

OUR TEAM

In the area of White-Collar Crime, Deepak has represented high-profile individuals and corporate clients in a range of cases, from corporate fraud and embezzlement to insider trading. He is recognized for his ability to address the sensitive nuances of these cases with a strategic approach that minimizes reputational risks for clients while ensuring a robust defence.

Deepak has worked for various clients in the Media & Entertainment sector. He has successfully represented clients in pre-litigation mediations, suits involving copyright infringement. He has also played pivotal role in trade mark infringement and other intellectual property disputes, defamation suits, and regulatory compliance.
